REAL ESTATE

9 Golden Pony Trail | #382674 | \$1,380,000

Elevated elegance in this 2568 square foot custom designed home on 10.6 acres in Yellowstone Trails Ranch adjacent to the Yellowstone River. This brilliantly designed- and built home was completed in 2020 and captures the views as few new homes have been able to do. Clean lines, simple living, quality construction. The location is approx 25 minutes south of Livingston in a private subdivision. The lot is adjacent to the HOA's 22 acre open ground that runs along the Yellowstone River corridor and connects and allows residents access to 106 additional acres of state ground. You literally open your door and can be fishing the banks of the Yellowstone or running the bird dogs on 128 acres within minutes. The home design was thoughtful and makes use of every space.

Michigan Man Sustains Thermal Burns in Yellowstone National Park

Jason D. Wicks, age 49, of Hillman, Michigan, was arraigned in federal court on August 23, 2023, facing criminal charges of off-trail travel in a Yellowstone National Park thermal area and being under the influence of alcohol or drugs to the degree he was a danger to himself or others. Wicks pleaded not guilty to the charges. As part of the conditions for release, Wicks is banned from Yellowstone and Grand Teton National Parks until these criminal charges are resolved. This incident remains under investigation. A trial date has not been set.

The violation notice merely contains allegations, and every defendant is presumed innocent unless and until proven guilty.

In a statement, Yellowstone National Park officials said that the ground in hydrothermal areas is fragile and thin, and there is scalding water just below the surface. Therefore, everyone must remain on boardwalks and trails and exercise extreme caution around Yellowstone's thermal features. You can learn more about safety in thermal areas here: <https://www.nps.gov/yell/planyourvisit/safety.htm>.

For additional information related to Yellowstone National Park, please contact the Public Affairs Office at 307-344-2015 or yell_public_affairs@nps.gov.

Increased Enforcement on Improper Wildlife Attractant Storage in Red Lodge

City officials, FWP working together on ongoing issue

RED LODGE – The City of Red Lodge and Montana Fish, Wildlife & Parks are working together to increase enforcement action on improper bear attractant storage, particularly garbage, in Red Lodge. In recent years, there has been an increase in the number of food-conditioned and human-habituated bears in Red Lodge due to improper attractant storage. Food-conditioned bears can become dangerous, and the euthanasia of such bears is often the only course of action to keep humans and property safe. To protect public safety and ensure bears stay wild in the Red Lodge area, FWP and city officials are more actively enforcing code violations for attractants and improper containment of waste. Montana state law and Red Lodge regulations prohibit the feeding of wildlife including bears, or otherwise handling waste which becomes a wildlife attractant.

For the City of Red Lodge, these regulations are outlined in Municipal Codes 5-5A-5 Wild Animals and 4-1-16 Solid Waste and are available online at https://library.qcode.us/lib/red_lodge_mt/pub/municipal_code.

For the state of Montana, this law is outlined in Montana Code Annotated 87-6-216 Unlawful Supplemental Feeding -- Exemption and is available online: <https://leg.mt.gov/bills/mca/index.html>.

It is the responsibility of every resident and property owner in the community to store attractants properly, including garbage. The City of Red Lodge, through a contract with Republic Services, provides bear-resistant garbage bins to residents. Residents are legally required to utilize these bins properly to mitigate food-conditioning of wildlife. If a bin malfunctions residents should immediately report the situation to Red Lodge officials at 406-446-1606 or Republic Services 406-252-5721 ext. 4 to get a replacement bin. Ensuring proper attractant storage at rentals is the responsibility of the property manager and/or the property owner.

Montana is bear country. Bears are naturally curious omnivores and are very food-driven. Allowing bears to access attractants, including garbage, puts people and bears at risk, as bears easily become conditioned to specific food sources and will return to places where they have acquired food. Securing and storing attractants properly is critical for the safety of both people and bears. Verbal or written warnings and education efforts for violations will be attempted before fines are issued. Red Lodge is a unique and beautiful place to live with abundant access to recreational activities and outdoor spaces, but it is also situated along a heavily used wildlife movement corridor. Bears have used this corridor along the Rock Creek drainage for generations to access natural food resources, making them frequent visitors to the Red Lodge area. City officials and FWP ask that everyone in Red Lodge—permanent residents and visitors—do their part to live responsibly with bears and allow them to maintain their traditional movement patterns to access vital natural food sources for winter survival.

To report an attractant storage violation, send location information and any additional details, including photos, to:

- FWP: 1-800-TIP-MONT or the Billings FWP office at 406-247-2940
- City of Red Lodge: Courtney Long, clong@cityofredlodge.com, 406-446-1606 ext. 118 or PO Box 9, Red Lodge, MT 59068

For more information on living in bear country, visit: fwp.mt.gov/conservation/wildlife-management/bear/be-bear-aware/living-bear-country

Bear Awareness Gardiner needs your help!

Want to learn about bears and help our community at the same time?

We are looking for volunteers to join Yellowstone Park's lead bear biologist, and Gardiner resident, Kerry Gunther to help keep our community safe, and our bears wild!

Please join us to help collect apples from the trees, and off the ground to make sure our local bears don't have a reason to visit this fall.

If you would like to have your trees picked and apples removed, or are willing to volunteer to help remove apples, please email Evan @
Evan@YellowstoneWildlifeGuideCompany.com

We are now offering an apple tree replacement program. The solution to bears coming to town for apples is to remove as many apple trees as possible from within town. If you choose to take down your tree, we will replace it with a non-fruit bearing tree in the spring. Please inquire if you have any questions, we'd love to help you bear safe your property!

Finally, **we also have electric fencing we can loan out to properties who have fruit trees, gardens or chicken coops that need bear proofing.** Supplies are limited, but we're happy to help! Please reach out to Evan with questions/interest.
