Bear Awareness Gardiner needs your help!

Want to learn about bears and help our community at the same time?

We are looking for volunteers to join Yellowstone Park's lead bear biologist, and Gardiner resident, Kerry Gunther to help keep our community safe, and our bears wild!

Please join us to help collect apples from the trees, and off the ground to make sure our local bears don't have a reason to visit this fall.

If you would like to have your trees picked and apples removed, or are willing to volunteer to help remove apples, please email Evan @

Evan@YellowstoneWildlifeGuideCompany.com

We are now offering an apple tree replacement program. The solution to bears coming to town for apples is to remove as many apple trees as possible from within town. If you choose to take down your tree, we will replace it with a non-fruit baring tree in the spring. Please inquire if you have any questions, we'd love to help you bear safe your property!

Finally, we also have electric fencing we can loan out to properties who have fruit trees, gardens or chicken coops that need bear proofing. Supplies are limited, but we're happy to help! Please reach out to Evan with questions/interest.

Good Time to Apply for Apprentice Program

HELENA – Montana's two-day, youth-only deer hunt is coming up Oct. 19 and 20, and general deer season opens Oct. 21. Now is a good time to consider signing up for the Apprentice Hunter Program.

The apprentice hunter program allows people ages 10 and older to hunt as apprentices with a mentor for two seasons without completing a Hunter Education course.

Fish, Wildlife & Parks highly recommends that interested people visit the website at fwp.mt.gov and read the packet on the Apprentice Hunter Program before seeking certification. The packet outlines guidelines for both the apprentice and the required mentor, including what apprentices can and cannot do, who can act as a mentor and how the certification process works. Reading up on it beforehand may prevent possible confusion and save people from making an extra trip.

Some key details to note:

- Certification can be done at an FWP office; forms can be downloaded ahead of time from the website. Certification can also be done by mailing the form to licensing, but the process takes longer.
- A person must be certified before purchasing appropriate licenses, which will then show apprentice status.
- There are limited license opportunities available for nonresidents. Nonresident youth (under age 18) may qualify for an over-the-counter general combination license that requires a separate form and payment to be completed at an FWP office or by mail. Nonresidents ages 18 or older do not qualify for an over-the-counter general combination license, but there are opportunities to purchase unlimited over-the-counter deer b and elk b licenses in certain areas of the state.
- Licenses for an apprentice under 18 can be purchased by a parent or relative as long as they present a copy of the parent's drivers license, along with a completed Apprentice Certification Form.
- A youth need not accompany the adult to certify as an apprentice, but he or she does need to fill out paperwork and understand the guidelines.
- The last four digits of the youth hunter's social security number is required; be sure to have this information.

An apprentice MUST:

- Be at least 10 years old at the time of license purchase.
- Fill out a certification form at an FWP office and pay a \$5 certificate fee (forms available online at fwp.mt.gov).
- Hunt with a certified mentor who is at least 21 and who has completed Hunter Education if born after Jan. 1, 1985.
- Have the appropriate current Montana hunting licenses for the species being hunted; the licenses must show that he/she is Apprentice Hunter certified.
- Stay within sight of the non-hunting mentor at all times.

An apprentice MAY:

- Be a resident or nonresident.
- Obtain apprentice certification for no more than two license years before he or she must complete a hunter safety and education course.
- Purchase general elk, general deer, deer b, elk b, turkey and upland bird licenses, depending on the age and residency status of the apprentice hunter as well as the availability of the specific license.

An apprentice is NOT ELIGIBLE to:

- Obtain a special bow and arrow license without first completing a Bowhunter Education course (must be 11 years old to take bow ed) and be 12 years old or turning 12 by January 16 of the upcoming year.
- Obtain a resident hound training license for chasing mountain lion.
- Participate in a hunting license or permit drawing with a limited quota.
- Obtain any bighorn sheep, black bear, mountain lion or wolf license.
- Obtain an elk license if under 15 years of age.

A mentor MUST:

- Be 21 or older.
- If the apprentice is under 18, the mentor must be related to the apprentice by blood, adoption or marriage; or be the apprentice's legal guardian or be designated by the apprentice's legal guardian.
- Have completed Hunter Education if born after Jan. 1, 1985.
- Have a current Montana hunting license.
- Complete the Apprentice Hunter Mentor form and carry the form in the field.
- Agree to accompany and supervise the apprentice hunter and remain within sight of and direct voice contact with the apprentice at all times while in the field.
- Confirm that the apprentice possesses the physical and psychological capacity to safely and ethically engage in hunting activities.

Hunter Kills Grizzly Bear in Encounter in Beattie Gulch

GARDINER – A hunter killed a grizzly bear Tuesday in an encounter in Beattie Gulch, an area north of Gardiner.

The hunter was reportedly charged by the bear before shooting and killing the bear at close range in self-defense. The hunter was not injured.

Montana Fish, Wildlife & Parks received a report of the incident the same day. FWP staff and staff from the U.S. Fish & Wildlife Service, U.S. Forest Service, and National Park Service visited the site and confirmed the bear mortality. An animal carcass was found nearby, and FWP bear specialists and game wardens determined the bear was likely acting defensively.

This incident is still under investigation by the U.S. Fish & Wildlife Service.

Be bear aware

Montana is bear country. Grizzly bear populations continue to become denser and more widespread in Montana, increasing the likelihood that residents and recreationists will encounter them in more places each year.

This time of year is when bears are active for longer periods as they consume more food in preparation for hibernation. This period overlaps with hunting season and other fall recreation activities.

Avoiding conflicts with bears is easier than dealing with conflicts. Here are some precautions to help residents, recreationists and people who work outdoors avoid negative bear encounters:

- Carry bear spray and practice to be prepared to use it immediately.
- Make noise to alert bears to your presence and travel in groups.
- Stay away from animal carcasses, which often attract bears.
- Follow food storage orders from the applicable land management agency.
- Keep garbage, bird feeders, pet food and other attractants put away in a secure building. Keep garbage in a secure building until the day it is collected. Certified bear-resistant garbage containers are available in many areas.
- Never feed wildlife. Bears that become food conditioned lose their natural foraging behavior and pose threats to human safety. It is illegal to feed bears in Montana.
- If you are attacked by a bear and you are without a deterrent or the deterrent hasn't worked, stay face down on the ground, protecting your face and neck with your arms. Stay still until you're certain the bear has moved away.

People who hunt in places that have or may have grizzly bears—which includes areas of Montana west of Billings—should take special precautions:

- Carry bear spray and practice to be prepared to use it immediately.
- Look for bear sign and be cautious around creeks and areas with limited visibility.
- Hunt with a group of people. Making localized noise can help alert bears to your presence.
- Be aware that elk calls and cover scents can attract bears.
- Bring the equipment and people needed to help field dress game and remove the meat from the kill site as soon as possible.
- If you need to leave part of the meat in the field during retrieval, hang it at least 10 feet off the ground and at least 150 yards from the gut pile. Leave it where it can be observed from a distance of at least 200 yards.
- Upon your return, observe the meat with binoculars. If it has been disturbed or if a bear is in the area, leave and call FWP.

Grizzly bears in the lower 48 states are listed as threatened under the Endangered Species Act. Management authority for grizzlies rests with the U.S. Fish & Wildlife Service, working closely in Montana with FWP, the Forest Service, the National Park Service, the Bureau of Land Management, the U.S. Geological Survey, Wildlife Services, and Native American tribes. This collaboration happens through the Interagency Grizzly Bear Committee.
